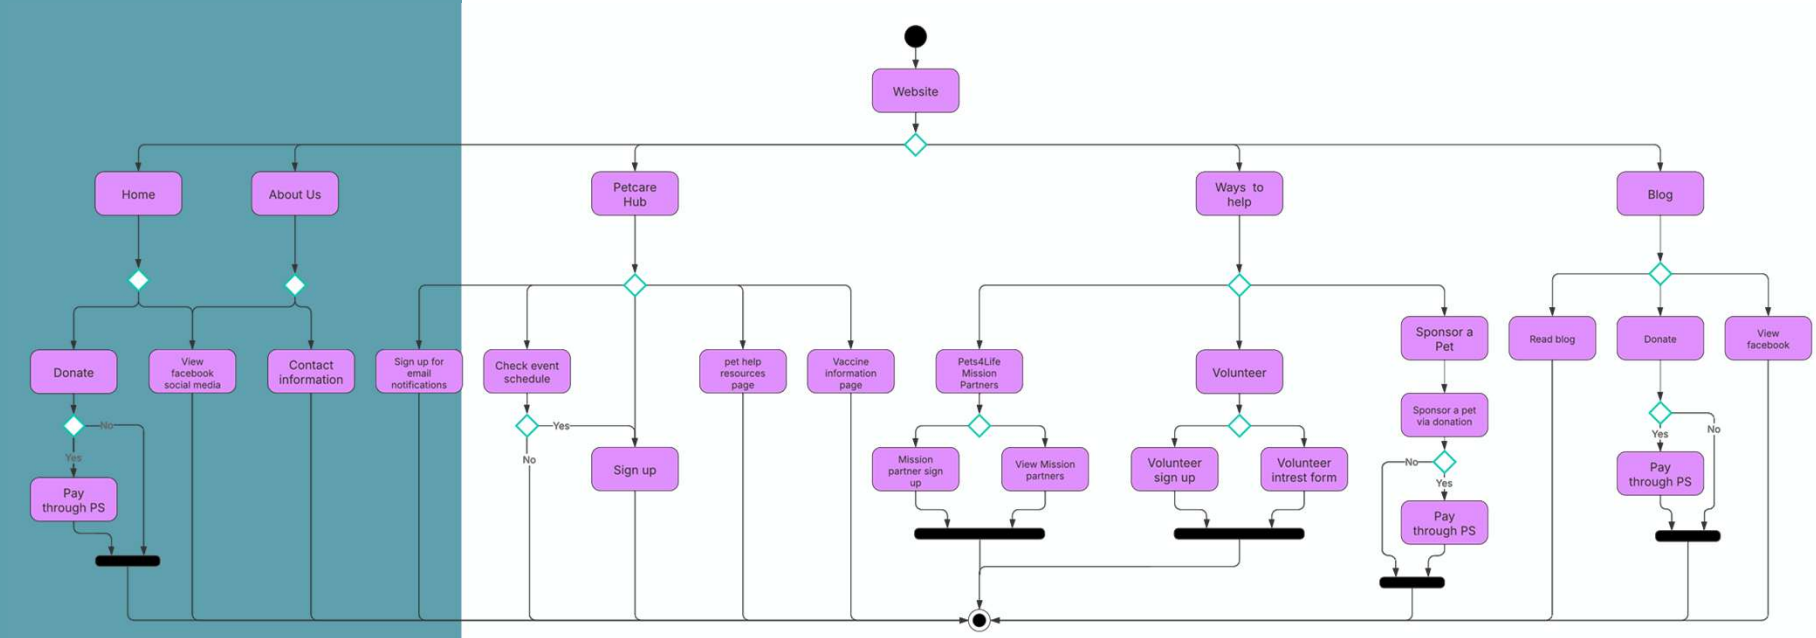
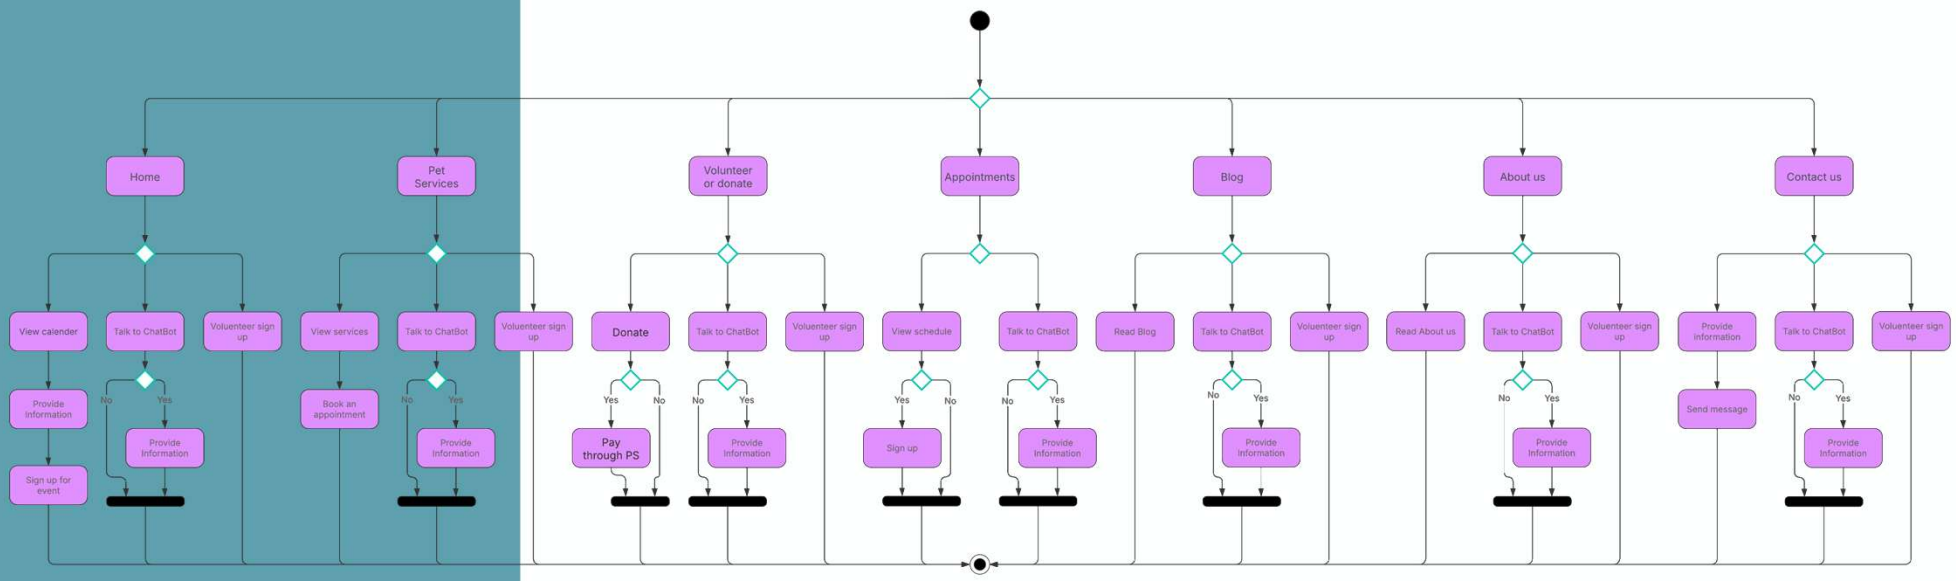
As-Is Process Model



To-Be Process Model



Economic Feasibility Analysis

Expected Growth	Year 1	Year 2	Year 3	Year 4	Year 5
Income	$129,850.00	$131,850.00	$133,890.00	$135,971.80	$138,093.22
Expenses	$129,665.35	$131,665.35	$133,705.35	$135,786.15	$137,908.57
Net Income	$184.65	$184.65	$184.65	$184.65	$184.65
Yearly NPV	$179.27	$174.05	$168.98	$164.06	$159.28

Notes:

- Assumed 2% annual growth in Grant Contributions.
- Assumed an average of 200 individual doners per year, all online.
- Assuming all other variables remain persistent over 5 years.

Additional Info:

Total NPV = $845.64

ROI: 0.0014

BEP: 1

Product Perspective

CMS: Jira Software

PMS:

High compatibility with Zapier and Airtable
Built-in Cash app support
high level of Accessibility

Product Features

- **AI Chatbot**
  Answers questions from users and provides helpful resources
  real time conversations with readable chat history
  Share files
